

Join the PARTNER PROGRAM

SyracuseCoE is a hub for innovation.

Led by Syracuse University, SyracuseCoE is New York State's Center of Excellence in Environmental & Energy Systems. The Center promotes jobs and wealth for CNY and NYS by collaborating with companies and universities to provide experiential learning opportunities for both students and the workforce.

The Partner Program brings together firms, institutions and community organizations to address global challenges in clean energy, healthy buildings and water resources. Members collaborate to develop and commercialize new products and technologies.

SyracuseCoE's LEED Platinum facility at 727 E. Washington Street in Syracuse is a living lab for energy-efficient building technologies, offering testbed opportunities to develop and demonstrate the latest advances in real-world and simulated conditions.

Since 2002, SyracuseCoE has funded 600+ research, development, and demonstration projects, as well as fellowships and internships, resulting in nearly 1,650 jobs created and retained, 88 patents and licenses, and 17 new start-up companies. In addition, SyracuseCoE has assisted its stakeholders in leveraging nearly \$225 million in additional R&D funding and investment.

PARTNER PROGRAM LEVELS:

- ★ **Industry Partner: \$10,000 annually**
- **Affiliate Partner: \$5,000 annually**
- **Start-up Partner: \$200 annually**

Complimentary memberships, with limited benefits, are also available for student entrepreneurs and community-based organizations.

CenterState CEO members receive a 50% discount at all levels. Startups may receive Affiliate level benefits for a special rate. Startup companies = less than 5 years old, < \$5M in revenues, under 25 employees.
